HELPFUL LINKS

From the Chairman

Dear Friends,

Thank you for your consistent support of the “DHS Business Opportunities Newsletter.” The next several newsletters will focus on the many opportunities that exist in the Department’s contracting authorities—from headquarters to FEMA. Providing some idea of how the authorities work and how to get your company’s foot in the door with each of them is the goal for this series.

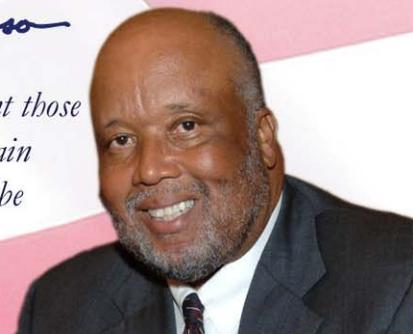

As we prepare for the Department’s first ever presidential transition, it is essential that all companies whether small, medium, or large have a keen understanding of the Department’s procurement practices. This newsletter is a testament to my commitment to the ideal that the necessary ingredients to create the American dream are work, optimism, and fairness. I remain committed to assuring fair and open competition and a level playing field.

Please continue to send in your views on working with the Department. Additionally, feel free to provide your suggestions on how to improve the newsletter. Do not hesitate to contact us at DHSBizOps@mail.house.gov if I can be of assistance to you.

Keep the Faith,

“Securing our homeland is one of the nation’s most critical needs. Artificial barriers that prevent those with good ideas from contributing to this important endeavor can no longer be permitted to remain unchecked. The kind of bureaucratic inertia that leads to limited opportunities for many must be replaced by a new spirit of service and inclusion. I am committed to ensuring expanded participation in this critical endeavor.”

—Chairman Bennie G. Thompson

FOCUS ON DHS HEADQUARTERS (FY 2008)

Total dollars: **\$887,423,523**

Total number of contractors: 403

Total number of transactions: 1,286

Top 5 Products or Services Sold

| | |
|---|---------------|
| Engineering and Technical Services | \$189,797,634 |

Victory for Small Businesses on IDIQ Contracts

Over the past eight years, the use of multiple-award, indefinite-delivery/indefinite-quantity type contracts (IDIQ) have not only increased, they are being managed in a way that ignores the set-aside requirements required by the Federal Acquisition Regulation (FAR) thereby decreasing procurement opportunities for small businesses. Blatant disregard for small business set-aside provisions are over. The GAO Comptroller General of the United States in the case of *Delex Systems, Inc. vs. Department of the Navy, Naval Air Systems Command (NAVAIR)*, recently issued a ruling that in effect says that the set-aside provisions within the Federal Acquisition Regulation were applicable to IDIQ contracts. This decision is a major win for small businesses.

In general, Federal Agency Acquisition management interpreted the regulations such that small business set-aside provisions were not applicable to the delivery orders/task orders under IDIQ contracts. The Agencies were generally reluctant to award even these base contracts to small business. After significant congressional and interest group pressure, Federal agencies began to award some small businesses IDIQ contracts. However, the small businesses had to compete with large business for task or delivery orders. This GAO decision provides hope to small businesses, especially small disadvantaged businesses, 8(a) businesses, and HUBZone businesses for ability to obtain the kind of support envisioned by the framers of small business laws and regulations. The moral of this story is not to just accept what Federal agency officials decide – it sometimes pays to challenge the status quo. Visit <http://www.gao.gov/decisions/bidpro/400321.htm> to review the decision. Additionally, for information on the bid protest process, please visit: <http://www.gao.gov/decisions/bidpro/bid/d06797sp.pdf>

UPCOMING EVENTS WITH DHS

Small Business Vendor Outreach Sessions are a series of pre-arranged 15-minute appointments with Small Business Specialists from various components of the Homeland Security procurement offices. Scheduled participants from the Department include representatives from:

- Department Headquarters (HQ)
- U.S. Coast Guard (USCG)
- U.S. Customs and Border Protection (CBP)
- Federal Emergency Management Agency (FEMA)
- U.S. Immigration and Customs Enforcement (ICE)
- U.S. Secret Service (USSS)
- Transportation and Security Administration (TSA)

Friday, November 14, 2008
9:00 a.m. — 12:00 p.m.
Holiday Inn Capitol
Columbia Ballroom

*Registration will be held on Friday,
November 7, 2008 at 12:00 noon*

OSDBU CONFERENCES

November 12, 2008
[Business Matchmaking](#)
Miami, Florida

DHS MENTOR-PROTÉGÉ PROGRAM

The DHS mentor-protégé program is designed to motivate and encourage large prime contractors to provide developmental assistance to small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns. The program is also designed to improve the performance of DHS contracts and subcontracts, foster the establishment of long-term business relationships between large and small businesses, and strengthen subcontracting opportunities at DHS. To participate in the program, firms must submit a joint mentor-protégé application. You may download the application by visiting: http://www.dhs.gov/xlibrary/assets/opnbiz/OSDBU_DHS_MentorApplication.pdf

Department of Homeland Security High Priority Representative Technology Areas

- Standoff detection on persons
- Tools to detect and mitigate animal disease breakouts
- Handheld rapid biological and chemical detection systems
- Analytical techniques for security across the information technology system engineering life cycle
- Composable and scalable secure systems
- Enhanced screening and examination by non intrusive Inspection
- Mobile biometrics screening capabilities
- High speed, high fidelity ten print capture capability
- Detection paradigms and systems for enhanced, emerging, and novel biological threats
- Ability to detect handmade or novel explosives
- Capability in real time for positive verification of individual's identity using multiple biometrics

Other High Priority Representative Technology Needs are in the "High Priority Technology Areas" Document. This document may be obtained by visiting www.hsarpabaa.com and by following the Representative High Priority Areas link.
