Publications of the Volcano Hazards Program 2006

By Manuel Nathenson

2008

Open-File Report 2008–1006

U.S. Department of the Interior
U.S. Geological Survey
The Volcano Hazards Program of the U.S. Geological Survey (USGS) is part of the Geologic Hazards Assessments subactivity as funded by Congressional appropriation. Investigations are carried out in the Geology and Hydrology Disciplines of the USGS and with cooperators at the Alaska Division of Geological and Geophysical Surveys, University of Alaska Fairbanks Geophysical Institute, University of Hawaii Hilo, University of Utah, and University of Washington Geophysics Program. This report lists publications from all these institutions.

This report contains only published papers and maps; numerous abstracts produced for presentations at scientific meetings have not been included. Publications are included based on date of publication with no attempt to assign them to Fiscal Year.

Chadwick, W. W., Jr., Geist, D. J., Jónsson, Sigurjón, Poland, Michael, Johnson, D. J., and Meertens, C. M., 2006, A volcano bursting at the seams: Inflation, faulting, and eruption at Sierra Negra volcano, Galápagos: Geology, v. 34, p. 1025-1028.

Chouet, Bernard, 2006, Modeling and understanding volcanic processes using high-quality seismological data: Géosciences, n. 4, p. 56-63.

Dzurisin, Daniel, Lisowski, Michael, Wicks, C. W., Poland, M. P., and Endo, E. T., 2006, Geodetic observations and modeling of magmatic inflation at the Three Sisters volcanic center, central Oregon Cascade Range, USA, in Poland, M. P., and Newman, Andrew,

Kwon, Oh-Ig, Lu, Zhong, Neal, Christina, and Wicks, Charles, Jr., 2006, Quiescent deformation of the Aniakchak Caldera, Alaska, mapped by InSAR: Geology, v. 34, p. 5-8.

Volcanoes - Recent Results and Advances in Volcano Geodesy: Journal of Volcanology and Geothermal Research, v. 150, p. ix-x.
