Intelink Services
INTELINK-TS: The Top Secret Intelligence Portal

- Provides Homeland Security Partners a managed entry point
- Customized data access based on mission needs
- Segregated Communities of Interest
- A Customer-focused perspective
INTELINK-S

Consumer Focus:
- Supports a broad DoD Mission
- U.S. Diplomatic Community

Operational Motto: *Let the customer find what they need without perfect knowledge of the Intelligence Community*

An excellent relationship with DISA allows for common approaches
The Unclassified Network - OSIS

A Virtual Private Network for exploiting and sharing:

- Unclassified,
- Sensitive But Unclassified,
- For Official Use Only, and
- Copy Write Protected information

Central data acquisition for select products and services

Member sites share unclassified products
Future VPN Connections

- Dept of State OpenNet
- FBI LEO
- Intelligence OSIS
- DoD NIPRnet
- State & Local RISSnet
