

MEMORANDUM

May 13, 2011

To: The Honorable Tom Coburn
Attention: Jeremy Hayes

From: Marian Leonardo Lawson
Analyst in Foreign Assistance, x7-4475

Subject: **FY2010 U.S. Foreign Assistance to Major Holders of U.S. Treasury Securities**

Per your request, this memo includes a table depicting U.S. foreign assistance in FY2010, by sector, to countries holding more than \$10.0 billion in U.S. treasury securities.¹ The FY2011 data you originally requested is not yet available, as county-level allocations have not been established following the April 15 enactment of P.L. 112-10. As requested, the funding in the table represents appropriated amounts and excludes assistance provided through the Foreign Military Financing account. Countries are ordered by the value of their treasury security holdings, with the highest value holder, China, listed first. Sectors are consistent with the State Department’s Foreign Assistance Framework. All of the assistance data in the table is compiled from the foreign assistance “Dashboard” at www.foreignassistance.gov.

Please do not hesitate to contact Marian Lawson at the number above if you have questions or need additional information.
