

PRINCIPAL DEPUTY UNDER SECRETARY OF DEFENSE

3015 DEFENSE PENTAGON
WASHINGTON, DC 20301-3015

ACQUISITION,
TECHNOLOGY
AND LOGISTICS

JUL 26 2010

The Honorable Carl Levin
Chairman, Committee on Armed Services
United States Senate
Washington, DC 20510

Dear Mr. Chairman:

Section 1231 of the National Defense Authorization Act for FY 2007 (Public Law 109-364), requires the Secretary of Defense to submit an annual report concerning foreign military sales (FMS) and direct sales to foreign entities of significant military equipment manufactured in the United States during the preceding calendar year. The Department of Defense (DoD) has access to all required FMS data but must rely upon the Department of State to provide the direct commercial sales data.

Although we do not have the commercial sales data at this point, the DoD wants to be as responsive as possible to the reporting requirement. Accordingly, we are submitting the required information on all FMS sales of significant military equipment in excess of \$2,000,000.

Enclosed is the required report on FMS of significant military equipment manufactured in the United States during FY 2009. Commercial sales data will be provided as soon as it is available.

A similar letter has been sent to the other congressional defense committees.

Sincerely,

A handwritten signature in black ink, appearing to read "Frank Kendall", is written above the printed name.

Frank Kendall

cc:
The Honorable John McCain
Ranking Member

**REPORT TO CONGRESS ON
DEPARTMENT OF DEFENSE SALES OF
SIGNIFICANT MILITARY EQUIPMENT
TO FOREIGN ENTITIES
FISCAL YEAR 2009**

**Under Secretary of Defense
for Acquisition, Technology and Logistics**

July 2010

REPORT TO CONGRESS

DEPARTMENT OF DEFENSE SALES OF SIGNIFICANT MILITARY EQUIPMENT TO FOREIGN ENTITIES

FISCAL YEAR 2009

July 2010

Under Secretary of Defense (Acquisition, Technology & Logistics)

Background

Section 1231 of the John Warner National Defense Authorization Act for Fiscal Year 2007, (Public Law 109-364), requires the Secretary of Defense to submit an annual report to Congress on foreign military sales (FMS) and direct sales to foreign entities of significant military equipment manufactured in the United States during the preceding calendar year. The report is to identify for all sales of significant military equipment in excess of \$2,000,000. Including (1) the nature of the equipment and the dollar value of the sales; (2) the country to which the equipment was sold; and (3) the manufacturer of the equipment and the State in which the equipment was manufactured. The law defines the term “significant military equipment” as having the meaning given the term in section 47(9) of the Arms Export Control Act (22 U.S.C. 2794(9) note).

The information requested by section 1231 is not stored in a single database. The Department of Defense is able to obtain and report information on FMS only. Information on direct commercial sales is available only through Department of State’s Licensing Division. While the State Department will be able to provide most of the requested information on direct commercial sales, it does not track the state in which the equipment was manufactured and does not provide the manufacturer.

It should also be noted that the data required to satisfy the FMS reporting requirements of section 1231 is not available in a readily accessible data base and must be requested from each of the Components on a manual data call basis. Further, although section 1231 requests data on a calendar year basis, the Department of Defense collects its data on a fiscal year basis. Therefore, the FMS data reflects FMS purchases in FY 2009.

FMS Purchases

1. FY 2009

Forty-four countries procured significant military equipment (SME) that exceeded \$2,000,000 through the FMS system in FY 2009. The total value of these purchases was \$8,041,376,740. These purchases were made through the Air Force, Army, and Navy and Marine Corps. A detailed breakout of the purchases by military service, contract number, manufacturer, dollar value, type of hardware, and state of performance is contained in the attached.

Direct Commercial Sales

1. FY 2009

We are awaiting State Department input on the direct commercial sales authorized for FY 2009. We will submit a supplemental report if and when we receive the data.
