

DEPUTY UNDER SECRETARY OF DEFENSE
3015 DEFENSE PENTAGON
WASHINGTON, DC 20301-3015

ACQUISITION AND
TECHNOLOGY

OCT - 1 2009

The Honorable Joseph I. Lieberman
Chairman, Senate Committee on Homeland Security
and Governmental Affairs
United States Senate
Washington, DC 20510

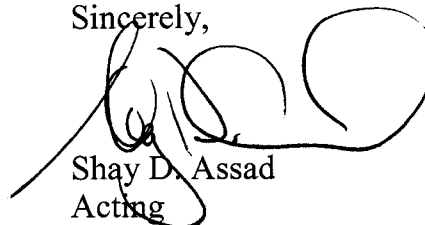

Dear Senator Lieberman:

Section 8306 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act for Fiscal Year 2007, Pub.L. 110-028, modified the Buy American Act (41 U.S.C. 10a) by adding a requirement for the head of each Federal agency to submit a report to Congress on the amount of acquisitions made by the agency from entities that manufacture articles, materials, or supplies outside of the United States in each of the Fiscal Years 2007 through 2011.

The report must include: (1) the dollar value of any articles, materials, or supplies purchased that were manufactured outside the United States; (2) provide an itemized list of all waivers granted with respect to such articles, materials or supplies under the Buy American Act (BAA); (3) the specific exception under this section that was used to purchase such articles, materials, or supplies; and (4) a summary of the total procurement funds spent on goods manufactured in the United States versus funds spent on goods manufactured outside the United States.

I am enclosing the required report for Department of Defense purchases of manufactured articles from foreign entities in Fiscal Year 2008 and sending a similar letter to the Chairman and Ranking Member of the House Committee on Oversight and Government Reform of the House of Representatives.

Sincerely,

Shay D. Assad
Acting

Enclosure:
As stated

cc:
The Honorable Susan M. Collins
Ranking Member

**Department of Defense
Report to Congress on
Purchases of Supplies Manufactured
Outside the
United States**

**Deputy Under Secretary of Defense
(Acquisition & Technology)**

September 2009

REPORT TO CONGRESS

DEPARTMENT OF DEFENSE FISCAL YEAR 2008 PURCHASES OF SUPPLIES MANUFACTURED OUTSIDE THE UNITED STATES

September 2009

Deputy Under Secretary of Defense (Acquisition and Technology)

Background

Section 8306 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act for Fiscal Year 2007 (Pub.L. 110-028), modified the Buy American Act (41 U.S.C. 10a) by adding a requirement for the head of each Federal Agency to submit a report to Congress on the amount of acquisitions made by the agency from entities that manufacture the articles, materials, or supplies outside of the United States in each of the Fiscal Years 2007 through 2011. The report is to separately identify (1) the dollar value of any articles, materials, or supplies purchased that were manufactured outside the United States; (2) provide an itemized list of all waivers granted with respect to such articles, materials or supplies under the Buy American Act (BAA); (3) the specific exception under this section that was used to purchase such articles, materials, or supplies; and (4) a summary of the total procurement funds spent on goods manufactured in the United States versus funds spent on goods manufactured outside the United States.

Discussion

This report includes three sections: (1) all procurements from foreign entities and more specifically, purchases of articles, materials, or supplies/manufactured goods from such foreign entities; (2) waivers granted with respect to such articles, materials or supplies under the Buy American Act (BAA); and (3) a comparison of procurement funds spent on goods manufactured in the U.S. versus funds spent on goods manufactured outside the U.S.

The information presented in this report addresses Fiscal Year 2008 and is based on data from the Federal Procurement Data System – New Generation (FPDS-NG), data compiled and distributed by DoD's Defense Manpower Data Center, Statistical Analysis Information Division, and data published by the Defense Security Cooperation Agency

(DSCA). The FPDS-NG data addresses contracting procedures, competition, financing, statutory requirements, socioeconomic programs and other information relating to DoD acquisitions. In some instances, all of the information required by section 8306 is not available. Additional adjustments are required to enable the system to more fully and accurately capture the data. It should be noted that the FPDS data in this report has been updated since submission of the report on DoD Purchases from Foreign Entities required by Section 827 of the National Defense Authorization Act for Fiscal Year 1997 (Public Law 104-201) submitted in June 2009 and Section 8029(b) of the Department of Defense Appropriations Act, 2008 (Public Law 110-116) submitted in August 2009. The instant report reflects overall purchases from foreign entities to be \$25,403,067,877, 7.4% higher than the \$23,653,898,373 reported in the two earlier reports. This change is a result of a further refinement of the data in FPDS, and is more in line with the data given in previous years.

Section 1 - Procurements from Foreign Entities

1(a) All procurements. DoD procurement actions recorded in FPDS-NG during FY 2008 totaled approximately \$396 billion. Of that amount, approximately \$25.4 billion or 6.4 percent was expended on purchases from foreign entities. A detailed breakout of the dollars by country is contained in **Table 1**.

The \$25.4 billion covers military hardware, subsistence, fuel, construction, services, and other miscellaneous items that are for use outside the U.S. Defense equipment constitutes approximately 12.8 percent of the purchases from foreign entities. Fuel, services, construction and subsistence account for approximately 20.5 percent, 30.7 percent, 12 percent, and .3 percent, respectively, or approximately 63.5 percent of the total purchases from foreign entities. **Table 2** provides a breakout of the \$25.4 billion by category and percentage of total.

For purposes of context, Defense Security Cooperation Agency data on foreign purchases of U.S. defense articles and services in Fiscal Year 2008 totaled approximately \$29.2 billion in FMS and \$7.2 billion in non-FMS for a combined total of \$36.4 billion in Security Assistance Sales (SAS). We have been unable at this time to obtain any information on direct commercial sales from the State Department.

1(b) Procurement of manufactured articles. This section focuses on defense articles provided by foreign entities that are manufactured outside the U.S. Of the approximately \$25.4 billion that was expended on **all** purchases from foreign entities defined by the Defense Claimant Program (DCP), **Table 3** notes that approximately \$9.2 billion was expended on contractual actions for the procurement of articles manufactured outside the U.S. **Table 3** removes the data in **Table 2** that are associated with petroleum, other fuels and lubricants, subsistence, construction and services (DCPs A8A, A8B, B2,

C3, and S1) to derive the \$9.2 billion for articles manufactured outside the U.S. **Table 3** further refines this data to exclude all activities/services included in the \$9.2 billion in DoD procurements from foreign entities that are not actually associated with manufactured goods. For example, Column 1 in **Table 3** reflects a total of \$230,366,596 for DCP A1A. However, after removal of costs associated with various aircraft related services including R&D and maintenance, the adjusted figure for A1A is only \$135,164,680 as reflected in column 2. Similar adjustments were made to the remaining DCPs, resulting in an adjusted total of \$8.5 billion for procurement of articles manufactured outside the U.S. by foreign entities. **Table 4** provides a detailed breakout of DoD purchases by foreign country, dollars, and number of actions. **Table 5** refines the data even further to provide visibility into this information by DCPs, country, dollars and the number of actions.

Section 2 - Waivers of the Buy American Act (BAA) Granted with Respect to such Articles, Materials or Supplies

FPDS-NG data reflect that 65,000 waivers of the BAA were granted for articles manufactured outside the U.S. during FY 2008. The value of these waivers total approximately \$18 billion. These exceptions utilized included: (1) manufactured outside the U.S. for use outside the U.S.; (2) manufactured outside the U.S.–Resale; (3) manufactured outside the U.S.–Trade Agreements; (4) manufactured outside the U.S.–Commercial IT; (5) manufactured outside the U.S.–Public Interest Determinations; (6) manufactured outside the U.S.–Unreasonable Cost of Domestic End Product; and (7) manufactured outside the U.S.–Qualifying Country.

Table 6 provides a detailed breakout of the actions and dollars by waiver category and an explanation of the authority for each of the waiver categories.

Section 3 - Comparison of Procurement Funds Spent on Goods Manufactured in the U.S. Versus Funds Spent on Goods Manufactured Outside the U.S.

Table 7 presents a comparison of contractual actions and dollars for procurement of goods manufactured by U.S. sources versus goods manufactured by foreign sources. As reflected in table 7, DoD's procurement of manufactured goods from U.S. sources totaled approximately \$153 billion as contrasted to DoD purchases of manufactured goods from foreign sources which totaled \$8.5 billion, or roughly 5.2% of all DoD's procurement of manufactured goods in Fiscal Year 2008.

Total		\$ 9,206,421,108	\$ 8,493,165,609

Note (1): The Department has developed "express" reporting for high volume and contingency contracting in support of Afghanistan and Iraq. Under express reporting, details of the data are not reported. Instead, the data is rolled up and summarized in the miscellaneous category of C9E- a reflection of why the dollar value in this category is so high.

Column 1 is a dollar summary of all DoD procurement actions, both obligations & deobligations, during FY 2008 for the DCP's shown above. Not included in column 1 are the costs associated with petroleum, other fuels and lubricants, subsistence, construction and services (DCPs A8A, A8B, B2, C2, and S1).

Column 2 is a dollar summary of the dollar value of defense articles provided by foreign entities that are manufactured outside the U.S. The difference between column 1 and 2 is that the values of services associated with this hardware has been removed. For example, R&D, Professional Services, Maintenance, Repair & Refurbishment, transportation, housekeeping services, etc. have been excluded. Column 2 is our estimate of the value of articles, materials, and supplies manufactured outside the US by foreign entities.
