I. INTRODUCTION

Developing and strengthening partnerships for building safer communities underlies all of the initiatives and activities carried out by FEMA in support of the National Earthquake Hazards Reduction Program (NEHRP). This Directory of FEMA Earthquake Partners supports those partnerships by providing contact information for more than 300 organizations and individuals involved in earthquake mitigation at the federal and state levels and in the non-governmental sector.

Section II, FEMA Earthquake Partners, provides contact information (organization, web page link, name and title of key staff, staff email, and staff telephone number, when provided) for the following groups: the NEHRP Agencies; the Advisory Committee on Earthquake Hazards Reduction (ACEHR); FEMA Regional and Headquarters (HQ) Earthquake Program Managers; State and Territorial Earthquake Program Managers; Regional Earthquake Consortia; Seismic Safety Commissions, Committees, and Councils; Universities and Academic Research Centers; and Non-Governmental Partners. Not every organization listed under Non-Governmental Partners has a mission based on earthquake mitigation. Some of the organizations are included because their constituents, such as homeowners, school children, and property insurers, will benefit from or have a significant interest in earthquake mitigation.

A ✓ next to an organization listed in Section II indicates that the organization has in-house resources, such as journals, magazines, bulletins, or newsletters (electronic and hard copy), through which FEMA and its partners can promote their earthquake publications and resources, best practices, and news of events and important activities. The names and types of in-house resources are listed in Section III. Every organization listed in Section II also maintains a web page which, in many instances, can be used to promote FEMA earthquake resources and activities.
