

COMPLETE LIST OF CASE STUDIES IDENTIFIED

During the information collection and analysis stage in the creation of the Dam Incidents and Failures Lessons Learned Information Sharing (LLIS) webpage, an extensive list of case studies was developed. This list of case studies including the dam name, location, and year of incident is presented in the table below. Though detailed, it is by no means exhaustive. Amendments as well as additions to the following list of case studies are welcomed and encouraged. If you would like to contribute information or resources to be considered for inclusion in the LLIS Dam Incidents and Failures website, please complete this [Information Sharing Form](#) and return it to feedback@llis.dhs.gov. For more information on directions for contributing material to this website, please see the Contribute tab of the Dams Incidents and Failures LLIS webpage.
