RESOURCE GUIDE

Target Hardening: Interior Modifications

DESCRIPTION

The following links and documents pertain exclusively to target hardening involving interior modifications of the asset or facility being protected.

RESOURCES

Guides and Reports

Associations

[International Window Film Association:](#)

[Safety/Security Window Film](#): This is an extensive examination by the International Window Film Association on the benefits of window film in target hardening and damage limitation in buildings. The report reviews historical incidents where shattered glass proved a dangerous hazard and discusses the different forms of protection and window hardening that can be taken to increase safety.
