

**INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 14, 2006 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was moderate nationally with 211 new fires reported. Four new large fires (*) were reported, two in the Southern Area, and one each in Northern Rockies and Southern California Areas. Six large fires were contained, two in Western Great Basin Area, and one each in the Eastern Great Basin, Northern Rockies, Rocky Mountain and Northwest Areas. Very high to extreme fire indices were reported in Arizona, Arkansas, California, Idaho, Montana, Nebraska, Nevada, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

Two MAFFS C-130 aircraft and support personnel from the 153rd Airlift Wing ANG, Cheyenne, Wyoming are deployed to Klamath Falls, Oregon. Maj. Ricky Rau is the Mission Commander. Two other MAFFS C-130 aircraft and support personnel from the 146th Airlift Wing ANG, Channel Islands, California are deployed to Boise, Idaho. Lt. Col. Frank Kehl is the Mission Commander.

The U.S. Army Task Force Blaze, commanded by LTC Ricky Love, is deployed to the Tripod Complex in Washington.

NORTHWEST AREA INCIDENTS/LARGE FIRES:

An Area Command Team (Loach) is assigned to manage the Tripod Complex, Flick Creek, and Tin Pan fires.

TRIPOD COMPLEX, Okanogan-Wenatchee National Forest. Two Type 1 Incident Management Teams (Molumby and Lohrey) are assigned. This fire is seven miles northeast of Winthrop, WA in timber. Numerous residences and other structures remain threatened. Spotting, backing fire, torching and smoldering were observed.

LAKE GEORGE, Deschutes National Forest. A Type 1 Incident Management Team (Anderson) is assigned. This fire is 13 Miles west of Sisters, OR in timber and logging slash. Communication sites remain threatened. Heavy fuel loading and steep terrain are hampering containment efforts. Active surface fire with torching and spotting was observed.

MT. HOOD COMPLEX, Mt. Hood National Forest. A Type 2 Incident Management Team (West) is assigned. This complex, comprised of 13 fires, is six miles east of Government Camp, OR in timber and heavy downed fuels. Sections of State Highway 35, campgrounds and trails remain closed. Recreation facilities and a communication repeater site are threatened. Running fire and group tree torching were observed.

BLISTER, Mount Hood National Forest. A Type 2 Incident Management Team (Paul) is assigned. This fire is 25 miles southeast of Mollala, OR in timber. Inaccessible, steep terrain, thick undergrowth and rolling material are hampering containment efforts. Increased fire behavior with spotting and short runs was observed.

IRISH SPRINGS COMPLEX, Vale District, Bureau of Land Management. A Type 2 Incident Management Team (Morcom) is assigned. This complex, comprised of the Irish Springs and Mud Spring fires is five miles north of Vale, OR in timber, grass, and sagebrush. Minimal fire behavior was observed.

FLICK CREEK, North Cascades National Park. A Washington Interagency Type 2 Incident Management Team (Barnett) is assigned. This fire is three miles southeast of Stehekin, WA in ponderosa pine, Douglas fir and grass. Several residences are threatened. The Team is also managing the Tin Pan incident. Smoldering and creeping were observed.

TIN PAN, Okanogan-Wenatchee National Forest. This lightning-caused Wildland Fire Use (WFU) incident is being managed to accomplish resource objectives. The fire is burning seven miles west of Lucerne, WA in timber. Hiking trails within the fire area remain closed. Creeping fire activity and torching were observed.

BONE, Prineville District, Bureau of Land Management. This fire is 12 miles southwest of Ukiah, OR in timber. No further information was received.

OCF- Ochoco National Forest

EASTERN GREAT BASIN AREA INCIDENTS/LARGE FIRES:

An Area Command Team has been ordered to manage fires on the Payette National Forest.

OLA COMPLEX, Southwest Area Office, Idaho Department of Lands. A Type 2 Incident Management Team (Lund) is assigned. This complex is 31 miles northwest of Boise, ID in timber, grass, and sagebrush. No further information was received.

SOUTH FORK COMPLEX, Payette National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This Complex, comprised of 25 fires, is 13 miles east of McCall, ID in timber. Structure protection for the town of Yellowpine is in place. Group torching and short crown runs were observed. Several fires have burned together. Some road closures are planned.

BOUNDARY, Salmon-Challis National Forest. A Type 2 Incident Management Team (Brunner) is assigned. This fire is 14 miles southeast of Landmark, ID in grass, subalpine fir and mixed conifer.

Difficult access is hampering containment efforts. Closure of several campgrounds remains in effect. Upslope runs, group tree torching, crowning and short range spotting were observed.

POTATO, Salmon-Challis National Forest. A Type 1 Incident Management Team (Broyles) is assigned. This fire is seven miles north of Stanley, ID in timber. Historical sites, fisheries, transmission lines, mining resources and recreation sites remain threatened. Accessibility and steep terrain are hampering containment efforts. Area closures and evacuation orders remain in effect. Isolated torching and short range spotting were observed.

PURDY, Bridger-Teton National Forest. A transfer of command from a Fire Use Incident Management Team (Weldon) to a Type 2 Incident Management Team (Mullenix) will occur today. This fire is 24 miles east of Kelly, WY in timber. Torching, crown runs and spotting were observed.

MAGPIE, Fishlake National Forest. This fire is five miles east of Fillmore, UT in brush and mixed conifer. Isolated torching, creeping and smoldering were observed.

BADGER, Cedar City Field Office, Bureau of Land Management. This fire is 11 miles southwest of Minersville, UT in grass, brush, pinyon pine and juniper. Running, torching and spotting were observed.

TROUT CREEK, Payette National Forest. A transfer of command from a Fire Use Incident Management Team (Bonefeld) to another FUMT (Hall) will occur. The Team will also manage the Payette WFU Complex. This fire is 50 miles northeast of McCall, ID in timber. The fire will be managed under a confine/contain strategy. Structure protection is being implemented. Torching, spotting and running were observed.

TRAIL CREEK, Salmon-Challis National Forest. A Fire Use Incident Management Team (Svalberg) will assume command today. This fire is 22 miles north of Stanley, ID in sub-alpine and Douglas fir. Structure protection measures have been implemented. Torching, spotting and creeping were observed.

PAYETTE WFU COMPLEX, Payette National Forest. This complex is comprised of 12 fires being managed to accomplish resource objectives. The fires are burning 20 to 50 miles northeast of McCall, ID in timber. Structure protection is in place for Taylor and Davis Ranches. Active fire behavior was observed.

NORTHERN ROCKIES AREA INCIDENTS/LARGE FIRES:

LIGHTNING CREEK, Nez Perce National Forest. A Type 2 Incident Management Team (McNitt) is assigned. This fire is 2 miles east of Riggins, ID in grass and timber. Limited access and steep terrain are hampering containment efforts. A lookout is threatened. Burn out operations were completed.

KEEP COOL, Helena National Forest. This fire is located six miles north of Lincoln, MT in timber. Moderate fire activity with some torching was observed. Burn out operations are planned.

BASTON-COOK COMPLEX, Nez Perce National Forest. A Type 2 Incident Management Team (Kusicko) is assigned. This fire is 15 miles southeast of Elk City, ID in timber. Numerous residences and a ranch remain threatened. Torching and creeping fire behavior were reported.

GASH CREEK, Bitterroot National Forest. A Type 2 Incident Management Team (Turman) is assigned. This fire is six miles southwest of Victor, MT in timber. Residences and watershed areas remain threatened. Occasional torching and creeping were observed.

RED EAGLE, Glacier National Park. A transfer of command from a Type 1 Incident Management Team (Stanich) to a Type 2 Incident Management Team (Heintz) will occur today. This fire is one mile southwest of St. Mary, MT in spruce and fir. Fire behavior included smoldering, creeping and torching.

BIG CREEK, Central Land Office, Montana Department of Natural Resources and Conservation. A transfer of command from a Type 2 Incident Management Team (Reid) back to the local unit will occur today. This fire started on private land 29 miles southwest of Livingston, MT in timber, grass, and sagebrush. Creeping, smoldering, and individual tree torching were reported.

FORD CREEK, Lewis & Clark National Forest This fire is 20 miles west of Augusta, MT in timber. Isolated torching and creeping were observed. Burn out operations will continue.

SOUTH PINE, Gallatin National Forest. This fire is 13 miles south of Livingston, MT in timber. Steep, rugged terrain continues to hamper containment efforts. Minimal fire behavior was observed.

NORTHERN CALIFORNIA AREA INCIDENTS/LARGE FIRES:

ORLEANS COMPLEX, Six Rivers National Forest. A Type 2 Incident Management Team (Sinclair) is assigned. The complex, comprised of the Somes and Buck fires, is east of Orleans, CA in timber and dead and down fuels. Numerous structures, cultural sites, and the municipal watershed for the community of Orleans remain threatened. Uphill fire runs with some torching was observed.

BAR COMPLEX, Shasta-Trinity National Forest. A transfer of command from a Type 1 Incident Management Team (Pincha-Tulley) to another Type 1 Incident Management Team (Dietrich) will occur on 8/15. This complex, comprised of four fires, is northwest of Weaverville, CA in timber and grass. Residences and utility infrastructure remain threatened. Difficult access is hampering containment efforts. Minimal fire activity was observed.

UNCLES COMPLEX, Klamath National Forest. A Type 2 Incident Management Team (Kaage) is assigned. This complex, comprised of the Uncles, Rush, and Hancock fires, is 18 miles northeast of Orleans, CA in old growth timber and brush. Numerous residences and other structures are threatened. Steep terrain is hampering containment efforts. Lower humidity and higher temperature increased fire activity. Torching, uphill runs and spotting were observed.

HAPPY CAMP, Klamath National Forest. A Type 2 Incident Management Team (Garwood) is assigned. This complex, comprised of 11 lightning caused fires, is near Happy Camp, CA in grass and timber. Limited access is hampering containment efforts. Recreational trails and cultural and spiritual sites are threatened. Smoldering fire behavior was observed.

HUNTER, Mendocino National Forest. A Type 2 Incident Management Team (Walker) is assigned. This fire is 19 miles southeast of Covelo, CA in timber and brush. Steep, inaccessible terrain is hampering containment efforts. Low intensity backing fire was reported.

SOUTHERN AREA INCIDENTS/LARGE FIRES:

JOHNSON MOUNTAIN, Texas Forest Service. A Type 2 Incident Management Team (Hannemann) is assigned. The Team is also managing the Clayton fire. This fire is near Mineral Wells, TX in timber. Residences are threatened. Rugged terrain is hampering containment efforts. Flame lengths up to 50 feet, short range spotting and major runs were observed.

JUNIPER, National Forests in Florida. A Florida State Type 2 Incident Management Team (Hill) is assigned. This fire is east of Ocala, FL in southern rough and brush. State Route 19 remains closed. The fire made a major run towards State Route 40.

CLAYTON, Texas Forest Service. This fire is near Bryson, TX in Brush and grass. Minimal fire behavior was observed with some interior flare ups.

OUTLOOK:

Weather Discussion: Warmer weather is on tap for most of the Northwest and Northern Rockies as high pressure covers most of the West. Most of the thunderstorm activity will be over the Four Corner States and Wyoming. There is also risk of thunderstorms over eastern Oregon and portions of Nevada.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Northwest Area Sunny	West of Cascades: 70 to low 80s except to 85 southwest Oregon. East of Cascades: 80 to 90.	West of Cascades: Generally 30 to 50%. East of Cascades: 10 to 20%, except 20 to 30% higher mountains.	Mostly west to northwest 5 to 12 mph, increasing to 15 to 25 mph east slopes of Washington and northern Oregon Cascades during the evening.
Eastern Great Basin Area Idaho, Bridger-Teton: Mostly sunny. Northern Utah: Mostly sunny west deserts, partly cloudy mountains and east with isolated to widely scattered thunderstorms. Southern Utah, Arizona Strip: Partly cloudy with isolated to widely scattered showers and thunderstorms.	Idaho, Bridger-Teton: 65 to 80 mountains, 80 to 92 valleys. Northern Utah: 73 to 85 mountains, 85 to 95 valleys. Southern Utah, Arizona Strip: 75 to 88 mountains, 88 to 102 valleys, 103 to 110 in the lower valleys.	Idaho, Bridger-Teton: 15 to 25 mountains, 10 to 18 valleys. Northern Utah: 20 to 30 mountains, 12 to 20 valleys. Southern Utah, Arizona Strip: 20 to 35 mountains, 13 to 20 valleys.	Idaho, Bridger-Teton: Upslope/upvalley 4 to 8 mph. Northern Utah: Upslope/upvalley 5 to 10 mph. Southern Utah, AZ Strip: Upslope/upvalley 5 to 10 mph early then southwest 15 to 20 mph.
Northern Rockies Area Broad upper level ridge moves over the area with mostly clear skies and warmer conditions. Expect fine weather across the area.	West of Divide – 78 to 88. East of Divide – 80 to 88. North Dakota – 78 to 88.	West of Divide – 16 to 24. East of Divide - 18 to 27. North Dakota – 25 to 40.	West of Divide – west 4 to 8 mph. East of Divide – south 5 to 10 mph. North Dakota – variable 5 to 10 mph.
Northern California Area Sunny.	Warmest inland areas 80s and 90s.	10 to 20 east of the Cascade-Sierra crest and 15 to 30 elsewhere inland.	Afternoon winds southwest to northwest 6 to 12 mph with gusts to 22 mph near the coast and southeast to southwest 4 to 8 mph with gusts to 17 mph elsewhere.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
Rocky Mountain Area Scattered showers and thunderstorms across southern portions of Kansas and Colorado, with isolated showers and thunderstorms (some dry) from central to northern Colorado into southern Wyoming.	Mid 70s to mid 80s across the Rocky Mountain Area, except near 90 in west-southwest Colorado and eastern Kansas, and 60s in the mountains.	8 to 18% across the lower elevations of Wyoming, with 12 to 20% in the mountains, as well as across the lower elevations of western Colorado and western South Dakota.	Variable at 5 to 15 mph.
Western Great Basin Mostly sunny with isolated thunderstorms.	80-95 except near 105 south.	5 to 20%	Generally 5 to 15 mph with some areas gusting to 25 mph.
Southern California Area Morning low clouds and fog coastal and inland areas, otherwise mostly sunny, except becoming partly cloudy with a few thunderstorms over the extreme eastern deserts.	80 to 90 mountains. 85 to 95 valleys. 95 to 100 upper deserts. 105 to 110 lower deserts.	50 to 70 coastal areas. 25 to 40 valleys. 15 to 30 mountains. 10 to 20 deserts.	Southeast to southwest 5 to 15 mph.
Eastern Area Scattered showers and thunderstorms across the eastern Great Lakes, southern Missouri, Illinois, Indiana, Ohio, northwest Pennsylvania, and western New York. Fair elsewhere.	70 to 75 across northeast Minnesota, the UP of Michigan, and Maine. 85 to 90 over the eastern Mid-Atlantic states. 75 to 85 elsewhere.	Greater than 40% across the Eastern Area.	Northwest at 15 to 25 mph across the northern and eastern Great Lakes. Southwest at 10 to 20 mph across northeast Indiana, the northeast Mid-Atlantic and Northeast states. Light to moderate winds elsewhere.
Southern Area No information reported.			
Southwest Area No information reported.

INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR

Every firefighter will give and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did they ask questions? Talk about what it is like giving a briefing. Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is registering?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
 - Task
 - Location
 - Communications
 - Hazards
 - Who, when, etc.
- It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:
 - Did you really listen? What do you do to make yourself pay attention to everything being said?
 - Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?
- To reduce the risks, take the time and get it right!
- You must know the location of the assignment and:
 - What is to be done.
 - Who you are to report to and how often to report.
 - When you are expected to complete the assignment.
 - Hazards.
 - Communication plan frequencies.
 - Weather and fire behavior.
 - Status of adjoining forces.
