

## Lessons Learned Information Sharing

www.LLIS.gov

LLIS Colleagues,

I would like to bring to your attention two new enhancements to the *Lessons Learned Information Sharing* system. The first, *LLIS Dispatch*, keeps you abreast of the most recent plans, guidelines, and documents in your specific areas of interest added to the *LLIS.gov* system. The second highlights a new *LLIS.gov* partner and provides additional resources for response professionals. Both greatly improve *LLIS.gov*'s information sharing capabilities, and I hope you find them useful tools in the important work you perform each day.

As always, if you have any questions or concerns, please contact us at [feedback@llis.dhs.gov](mailto:feedback@llis.dhs.gov).

Thanks,  
John L. Rabin  
*LLIS.gov* Program Director

### INTRODUCING *LLIS DISPATCH*

*LLIS.gov* content can now be delivered directly to your inbox through the new [LLIS Dispatch](#) feature. You can create a customized newsletter that will update you on the newly published documents on *LLIS.gov* that relate to your specific topics of interest.

The next time you log onto *LLIS.gov*, you'll be prompted to choose the topics and disciplines on which you'd like to be updated. After signing-up, you will automatically receive your *Dispatch* every two weeks. You can adjust your preferences at any time through the Settings tab located on the top navigation bar on the *LLIS.gov* homepage.

### LLIS PARTNERS WITH EMR-ISAC

*LLIS.gov* has partnered with the Emergency Management and Response – Information Sharing and Analysis Center (EMR-ISAC) to provide *LLIS.gov* members access to the EMR-ISAC's free, critical infrastructure protection (CIP) information. Located at the National Emergency Training Center in Emmitsburg, MD, the EMR-ISAC was developed to collect, analyze, and disseminate timely, consequential information to assist in the practice of critical infrastructure protection by the leaders, owners, and operators of the nation's Emergency Services Sector.

The EMR-ISAC, a no-cost information sharing program within the Department of Homeland Security, specifically provides information necessary to protect local internal critical infrastructures (i.e., personnel, physical assets, and communication/cyber systems that must be intact and operational 24 x 7) against all hazards, from natural disasters to terrorist activities. The program's main focus is ensuring that emergency response leadership, their organizations, and local policy leaders have both the internal and external support and resources to aid in disaster protection, prevention, and response to enhance survivability, continuity of operations, and mission success.

The EMR-ISAC can be contacted at [emr-isac@dhs.gov](mailto:emr-isac@dhs.gov) or 301-447-1325. To view the EMR-ISAC page on *LLIS.gov*, please [click here](#) or login to *LLIS.gov* and click on the EMR-ISAC link on the homepage. To subscribe for free CIP information, follow the directions at <https://disasterhelp.gov> (EMR-ISAC Registration Information seen at the right bar under Quick Links).
