

February 24, 2016

Daniel H. Dorman, Regional Administrator
U.S. NRC Region I
2100 Renaissance Blvd., Suite 100
King of Prussia, PA 19406-2713

Regional Administrator Dorman:

Enclosed is a copy of the final report for the Brattleboro Memorial Hospital Medical Services (MS-1) Drill that was conducted on December 9, 2015.

The State of Vermont, the Brattleboro Memorial Hospital, and Rescue Inc. Ambulance Service successfully demonstrated their capabilities to implement their off-site radiological emergency response plans and procedures. Based on the evaluation of this exercise by the FEMA Region I evaluators, there were no deficiencies and no Areas Requiring Corrective Action (ARCA).

State and local preparedness remains adequate to protect the health and safety of the public living in the vicinity of the Vermont Yankee Nuclear Power Station and provides reasonable assurance that appropriate measures can be taken off-site in the event of a radiological emergency.

If you have any questions regarding this matter, please feel free to contact me at 617-832-4731, or Ryan Jones, of my staff, at (617) 832-4718.

Sincerely,

Steve L. Colman
Regional Assistance Committee Chair
